MARITIME ANNOUNCES \$3.5M NON - BROKERED PRIVATE PLACEMENT

TORONTO, ON - Maritime Resources Corp. (MAE-TSX Venture, "Maritime" or the "Company") is pleased to announce a non-brokered private placement of up to \$3.5 million through the issuance of a combination of common shares in the capital of the Company ("Common Shares") at a price of \$0.06 per Common Share and flow-through Common Shares (the "FT Shares") at a price of \$0.065 per FT Share (the "Offering").

The Company is pleased to announce that Dundee Goodman Merchant Partners (DGMP), a division of Goodman & Company, Investment Counsel Inc., Sprott Capital Partners LP and Canaccord Genuity Corp. are acting as advisors to the Company. The financing is anticipated to close on or about May 14, 2020.

The Company may pay finder's fees of 5% of the gross proceeds from the sale of the Common Shares and FT Shares sold under the Offering payable in either cash or common shares at the option of the finder. The private placement is subject to TSX Venture Exchange approval and all securities issued will be subject to a four-month hold period.

Use of Proceeds

The net proceeds of the Offering will be used by the Company to continue exploration and development of the Hammerdown gold project, as well as for working capital and general corporate purposes.

This news release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States of America. The securities have not been and will not be registered under the United States Securities Act of 1933 (the "1933 Act") or any state securities laws and may not be offered or sold within the United States or to U.S. Persons (as defined in the 1933 Act) unless registered under the 1933 Act and applicable state securities laws, or an exemption from such registration is available.

About Maritime Resources Corp.:

Maritime Resources holds a 100% interest in the Green Bay Property, including the former Hammerdown gold mine and Orion project plus the Whisker Valley exploration project, all located near the Baie Verte Mining District and Springdale, Newfoundland and Labrador. The Hammerdown gold deposit is characterized by near-vertical, narrow mesothermal quartz veins containing gold in pyrite. Hammerdown was last operated by Richmond Mines between 2000-2004 producing 143,000 ounces of gold at an average mine grade of 15.7 gpt Au through a combination of narrow vein open pit and underground mining.

Cautionary note regarding forward-looking statements

Certain of the statements made and information contained herein is “forward-looking information” within the meaning of National Instrument 51-102, Continuous Disclosure Obligations of the Canadian Securities Administrators. This includes statements concerning the potential to increase mineral resource and mineral reserve estimates and the Company’s Preliminary Economic Assessment to restart the Hammerdown Mine, acquire new mineral property interests or business opportunities, which involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking information. All forward-looking statements and forward-looking information are based on reasonable assumptions that have been made by the Company in good faith as at the date of such information. Such assumptions include, without limitation, the price of and anticipated costs of recovery of, base metal concentrates, gold and silver, the presence of and continuity of such minerals at modeled grades and values, the capacities of various machinery and equipment, the use of ore sorting technology will produce positive results, the availability of personnel, machinery and equipment at estimated prices, mineral recovery rates, and others. Forward-looking information is subject to a variety of risks and uncertainties which could cause actual events or results to differ from those reflected in the forward-looking information, including, without limitation, uncertainty as to whether this financing will be completed, the ability of the Company to continue to be able to access the capital markets for the funding necessary to acquire, maintain and advance exploration properties or business opportunities; global financial conditions, including market reaction to the coronavirus outbreak; competition within the industry to acquire properties of merit or new business opportunities, and competition from other companies possessing greater technical and financial resources; difficulties in advancing towards a development decision at the Hammerdown Mine and executing exploration programs at its Newfoundland and Labrador properties on the Company’s proposed schedules and within its cost estimates, whether due to weather conditions, availability or interruption of power supply, mechanical equipment performance problems, natural disasters or pandemics in the areas where it operates, increasingly stringent environmental regulations and other permitting restrictions or maintaining title or other factors related to exploring of its properties, such as the availability of essential supplies and services; factors beyond the capacity of the Company to anticipate and control, such as the marketability of mineral products produced from the Company’s properties, uncertainty as to whether mineral resources will ever be converted into mineral reserves once economic considerations are applied, uncertainty as to whether inferred mineral resources will be converted to the measured and indicated categories through further drilling, or into mineral reserves, once economic considerations are applied, government regulations relating to health, safety and the environment, and the scale and scope of royalties and taxes on production; the availability of experienced contractors and professional

staff to perform work in a competitive environment and the resulting adverse impact on costs and performance and other risks and uncertainties, including those described in each MD&A of financial condition and results of operations. In addition, forward-looking information is based on various assumptions including, without limitation, assumptions associated with exploration results and costs and the availability of materials and skilled labour. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking statements. Accordingly, readers are advised not to place undue reliance on forward-looking information. Except as required under applicable securities legislation, Maritime undertakes no obligation to publicly update or revise forward-looking information, whether as a result of new information, future events or otherwise.
